# Breaking News: One of Our Members Makes \$655,000 in a Single Month With One of These Websites

**May 4, 2024**

**@Jason:** Hi, it's Jason Caluori here. I'm writing this on my laptop as I sit at my kitchen table. I'm up in Western Montana, just West of the Bitterroot River on the other side of the valley.

It's nice outside right now, we may get rain later, but this type of day has got me thinking...

I do not miss commuting to work, there and back. Not to mention, I'm a fast eater. I mean I eat about 2-3X faster than my wife and other people I know. But I do not miss having to hurry eating lunch on my 45min-1hr lunch break at work.

I do not miss having to be clean shaven for my job.

Yes, I still shave every now and then. But it's on my own terms now.

I especially do not miss waking up early for work, or attending mandatory staff meetings.

Nope.

None of it.

Instead, I recently traveled down to Alabama to see Donothan Gamble. Our kids played on the beach. We ate good seafood and cruised around The Gulf in a boat together. And then we came home.

All the while, our businesses made money for us.

Life is quite different for me now than it used to be.

Because I got something going online. And that something, which Donothan and I both discovered, is what I'll share with you in this short report.

### **Right now is an exciting time to be alive.**

One, because there are changes making it easier for beginners to get started.

And two, the program Donothan Gamble and I opened last year, is about to reopen.

### **So much has happened so fast...**

A student of ours named Chi just made **\$655,000 in a single month**. All profit, minus the \$12 domain name he purchased for his website. He also has a \$20 ChatGPT-4 account.

### **Who wouldn't want to drop about \$32 tiny dollars in costs, to make a whopping \$655,000 in profit?**

Yes. Of course anyone would enthusiastically say "Yes" to that.

It's exciting. It's so exciting for Chi, that now instead of going on vacations, he stays home and builds more websites!

I'm going to do my best to introduce you to that world Donothan and I have created where this is happening. It's a weird world where this is normal.

Where you can make hundreds of thousands of dollars online from your website.

Crazy Commissions With Websites Powered By Free Traffic:  
<https://wealthsuccessfreedom.com/workshop/>

Wow, just think about that. You could be there too. And you have one of these websites that's so fun to work on, that you would rather stay home from a nice vacation... so you can make more and more affiliate money!

Imagine telling your spouse, "Let's skip the vacation this year. Because honey, there's so much money to be made!"

**Then another update came in.**

Both Brian & Chris each recently reported they had an affiliate commission come in. They actually didn't know they'd made the money until a little while later.

Because it happened behind-the-scenes.

Imagine that, **someone pays you \$500 extra today.** And it happens via a website you setup last week. But you're busy doing something and you don't notice that this money came in.

Then, SURPRISE! Later today you log in and see an extra \$500!

Our websites do this on the regular.

You see, our websites run without constant attention.

And this means our websites make money when we're sleeping, watching TV, on a plane, on a boat, when you're laying on your back sunbathing on the beach, etc etc.

**I call these situations 'Surprise Commissions'** when one of our members notices this nice surprise. Because they're noticing the passive income nature of what we're doing here.

Yes - this is passive income.

Crazy Commissions With Websites Powered By Free Traffic:  
<https://wealthsuccessfreedom.com/workshop/>

You get one of these websites.

You add your affiliate links.

And the thing keeps working, long after you've logged out and closed the tabs in your browser.

**It stays up and keeps making you money while you sleep.**

People visit your website. They click on links and make purchases. And the merchants who sell those products, **they pay you affiliate commissions via Paypal, Bank Wire, or however you want to get paid.**

I sometimes forget how magical it feels.

That is, until a family member who's wet behind the ears to this whole thing, asks me how it works. And I go into explaining everything I'm sharing with you now.

It never gets boring.

**There's some type of magic in a thing that can be setup one time, then it makes money passively for us.**

Yes, we tend to our websites.

Just like a plant, it needs some TLC to really grow and make us more money.

But make no mistake, the passive income from these is quite special.

**Then another update came in...**

From a top guy in the industry (you're probably on his email newsletter and you've probably seen his face on webinars outside of our community) - he is now up to **well over \$4,000 from his website.**

What happened is, at the beginning of the year, he caught wind of the money that us and our members are making.

He asked, "Should I do this too? Should I have one of these websites?"

"Yes," Donothan and I both replied with a big smile on our faces.

**Because we both knew what would happen next...**

Right after you change your "Should I do this...?" question, into a "Yes, let's do it," decision! – That's when the action happens.

And it did.

We went to work and made him a website, just like the ones our members get.

We gave it to him. He got his username, password, and ownership of the website.

Then at that point, it was his website.

And now he's cashing in on passive income from it.

**Donothan and I are now seeing people from all walks of life doing this and getting their own affiliate website with our help...**

- The craziest thing was when we saw a **70 year old grandmother** do this. Up until that point in her life, she had never seen more money come all at once and come in so fast!

- **Numerous people spent \$10,000+ with “the gurus” in years past.** Now they’re following Donothan and I, and turning that *Money Pit into a Money Pile* in **a triumphant comeback** – this is my favorite thing to see happen.
- **Many people with 9-5 jobs** noticed the real risk of *layoffs, reduced hours, and once reliable businesses* – that are not so reliable now in 2024. Those people are firing their boss. And replacing it with affiliate **websites powered by free traffic**, with real financial security and path to financial independence so many have been searching for.
- **Total beginners, people who haven’t made money online yet,** Donothan and I have helped them get to 7-figures in sales. With **websites worth over \$500,000** if they ever wanted to sell. Many don’t because they like holding onto the cash flow from their website.
- **Agency owners are jumping into this.** Many know they’ve made their clients rich already by doing their online marketing. But what if *making your clients rich*, isn’t making you rich too? Then you build something for YOU – **this type of website is the answer**. And for agency owners, it’s the path to getting out of having to do agency work for clients altogether!

Now let’s get you going with this!

## **Secret #1: The Underground World of Evergreen Commission Machines.**

**@Donothan:** Last year we introduced a graphic of a ladder. We did this to show how people progress through their affiliate marketing money-getting with us. It's a sort of simple visual for how much money you can make, where you can start, and where you can end up.

When you first come in, you learn from us, get the type of website we've been talking about, and you start somewhere on the ladder.

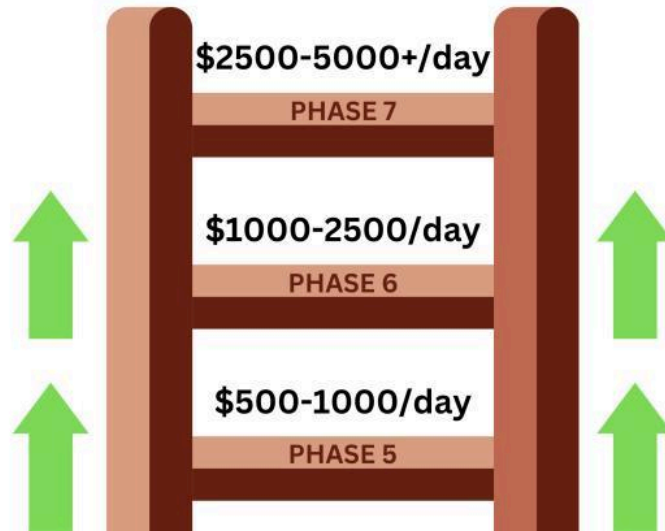

Many people hit the ground running at the bottom of the ladder. The \$10-20/day range. And while I can hear someone turning their nose up at this and saying “only \$20 per day! I’ll pass!” For the members who are making that money as they get started, they love it.

Because after that, you can start moving up.

Some people zoom fast, zipping right up the rungs of the ladder. And some are even hitting figures far above the ladder!

For example, the \$655k in a single month I mentioned above, that’s over \$21k per day! Way past the top of the ladder.

# And Beyond!

# Every Affiliate Offer Creates Passive Income

Now plug in ANY affiliate offer (you're not limited to just one) and you've got a niche website making money - passive money. Because affiliate marketing is truly needed for passive income.

Here's a few types of affiliate offers that work well with these websites.

## Finance Offers:

Credit cards, investment apps, online trading platforms, financial planning courses, eBooks on financial literacy, gold IRAs, etc.

- **Affiliate Programs:** Some of these offers make our members \$1000 per day. And we've become the only place that trains up affiliate marketers from beginner-level to being able to access these top shelf programs.

## ClickBank Offers:

ClickBank is one of the oldest and most reliable affiliate networks around. They started in 1998. But surprisingly many affiliate marketers don't have effective methods to make money from the offers on their platform. We do.

- **Affiliate Programs:** ClickBank is a great place to find digital products to sell, as well as health offers, and very relevant niche offers. A number of these affiliate programs will pay 100% commissions to affiliate marketers if they can show they have a solid digital asset like we show you how to build.

## Amazon Offers:

Amazon is the original affiliate program that started it all. And while just about everyone I know can get approved as an Amazon associate, not everyone is making money yet.

- **Affiliate Programs:** Amazon Games will pay you 20%, Premium Beauty products 12%, Clothing 7.5%, Office Supplies 5%, Computers 5%, and the list goes on and on. You have access to so much here.
